

# Introduction

**Name: ZL-9001A Computer type carton resist compression tester**

## 1. The Application:

Concrete Compressive Strength Tester Price used for measuring the pressure strength of cartons, containers, etc. for inspecting the pressure-resistance and strike-endurance of packing materials during transportation or carry. It's equipped with 4 precise Load Cells for detection. The testing results are displayed by computer.

Address: No.62, Xinhe Management of Area, Wanjiang District, Dongguan city, Guangdong province, China

## 2. Specifications

Concrete Compressive Strength Tester Price	
Model	ZL-9001A
Capacity (optional)	1000KG,2000KG
Unit (switchable)	Kg, Lb, N
Load Resolution	1/250,000
Load Accuracy	≤0.5%
Stroke (exclude the grips)	400 mm
Test Space (L×W×H)	1300×1500×1200mm
Speed of Compression	10 ± 3 mm/min
Operation Mode	PC
Report Items	Serial number, Peak value, Average value, Designated holding pressure value; all memorable
Structure	Servo Motor ; Imported ball screw rod
Dimension (L×W×H)	2000×1500×2030mm
Weight	Approx. 1340kg
Power	1∅, 220v/ 50Hz
Safety Devices	Overload protection, overvoltage protection & limited position protection device
Standard	TAPPI-T804, JIS-20212, GB4857.3.4, ASTM-D642

## 3. The Features:

### Concrete Compressive Strength Tester Price

1. Adopting windows platform, and all the parameter settings can be processed in the dialog box, and it operates easily;
2. Using a single-screen operation; do not need to switch the screen;
3. With three languages in Simplified Chinese, Traditional Chinese and English, the software interface can be switched easily;
4. The pattern of Test reports can be self-designated; test data can be displayed directly in the main screen;
5. Choosing translational comparative mode at the same time to make a number of curve data comparison;
6. With a variety of measurement units, Measure In Imperial & Metric are switchable;
7. With self-return & auto-correction function;
8. With automatic magnification function, in order to achieve the most appropriate size of the graphics;
9. With the user-defined Test methods; with experimental data analysis function;
10. It can do test of compression, bending, pressure holding & fatigue.
11. With high precision and accuracy and reasonable price, it can test the crush instantaneously and stop automatically.
